Unique features		Social-innovator-centric design on sustainable venture building together with flexible incubation programme		Broader and deeper network building activities, with non-governmental organisations, non-profit organisations, social enterprises, alumni and current SIE Fund grantees, business community members, funders, etc.	Provides experts and equipment to support the creation of both physical and digital prototype products	Partnered up with Cyberport to provide a platform for social innovators to use technology innovatively in their social innovation projects, which can enhance their creativity			
		Social innovators to be equipped with Economic Capital, Strategic Capital, Social Capital and Cultural Capital to cross the "valley of death" and build a sustainable, scalable and impactful social business		Utilises HKCSS's platforms to connect social innovators/ventures with potential funders	Makerspace as an effective social innovation and entrepreneurship learning environment	Uses its unique position as a world-wide social development organisation to offer social innovators a global perspective			
		Open for application all-year-round if the requested funding amount exceeds HK\$500,000		Tailored one-on-one and group consultation sessions, by expert talent drawn from a dedicated pool of consultants. Consultation support ranges from branding and marketing, impact identification and assessment, business and network development, operational improvement and finance and risk management	Hybrid training mode combines face-to-face training and online course platform	Adoption of an international social impact assessment framework in measuring innovative projects' impact			
		Structured Social Entrepreneurship Body of Knowledge with proven experience for social innovators/ventures to apply in practice		All-round project management support, to help social innovators with the reporting process and commitments		A matching fund is also available for selected projects for social innovators to expand the project scale so that more people in need may benefit			
		A physical working space for funded social innovators/ventures to co-create, innovate, learn, support, use for meetings and training		Fast track application process for social innovators who received SIE Fund previously with a good track record and high potential
