

Alleviating Poverty through Three Priority Action Areas on Innovation

Over HK\$800 million has been allocated to various initiatives to date

INNOVATIVE PROGRAMMES Number of Beneficiaries over 374 200

Beneficiary Groups

Service Nature

RESEARCH Number of Beneficiaries over 157 700

Applied Research in Social Innovation

Scope of Research

Cover medical care, education and learning, community participation, etc. with the aim of facilitating social inclusion through assisting beneficiaries in overcoming barriers.

Beneficiaries

Persons with mild neurocognitive disorder, stroke patients, elderly, persons with hearing, visual or speech impairment, students and women of diverse race, autistic children, etc.

Business for Good 2.0: Building the New Normal with Stakeholders

The project explores how local businesses, especially small and medium enterprises, can build the new normal with stakeholders under the business for good framework. The project will formulate concrete recommendations and draw up a practical guide to facilitate local businesses on "HOW" to tackle the challenges and seize the post-pandemic opportunities by adopting stakeholder capitalism.

Total Number of Beneficiaries over 597 600

CAPACITY BUILDING Number of Beneficiaries over 65 600

FOOD-CO Food Support Collaborative Platform

Making use of information technology and data analysis, FOOD-CO is the first all-dimensional collaborative platform in Hong Kong to connect food support service operators, food donors, supporting organisations and volunteers to enhance the effectiveness and efficiency of the food support service.

Gerontechnology Platform

The first inclusive Gerontechnology Platform in Hong Kong that links up different stakeholders on the supply and demand sides and fosters synergy to promote the development and application of gerontechnology, enhancing the quality of life of the elderly and providing support to their families, caregivers and healthcare staff as well as institutions.

*Information as of end February 2026

Summary:

The SIE Fund seeks to alleviate poverty through three priority action areas on innovation. Over HK\$800 million has been allocated to various initiatives as of February 2026. The number of funded projects in total is 753 and the total number of beneficiaries is over 597 600. Number of projects, by service nature: 155 on healthcare; 36 on food; 55 on living; 16 on transport; 212 on education and learning; 167 on job training and opportunities; 71 on community participation; and 41 on others.

Under "**Innovative Programmes**", the number of funded projects is 657 and the number of beneficiaries is over 374 200. Categorised by beneficiary groups: persons with disabilities account for 10%, children and youth account for 19%, people of diverse race account for 8%, low-income families account for 11%, elderly account for 46%, and others account for 6%.

Under "**Research**", the number of funded projects is 76 and the number of beneficiaries is over 157 700. Among them is the "**Applied Research in Social Innovation**". Its scope of research covers medical care, education and learning, community participation, etc. with the aim of facilitating social inclusion through assisting beneficiaries in overcoming barriers. Beneficiaries include persons with mild neurocognitive disorder, stroke patients, elderly, persons with hearing, visual or speech impairment, students and women of diverse race, autistic children, etc. Another example is the research titled "**Business for Good 2.0: Building the New Normal with Stakeholders**". The project explores how local businesses, especially small and medium enterprises, can build the new normal with stakeholders under the business for good framework. The project will formulate concrete recommendations and draw up a practical guide to facilitate local businesses on "HOW" to tackle the challenges and seize the post-pandemic opportunities by adopting stakeholder capitalism.

Under "**Capacity Building**", the number of funded projects is 16 and the number of beneficiaries is over 65 600. One such project is "**FOOD-CO Food Support Collaborative Platform**". Making use of information technology and data analysis, FOOD-CO is the first all-dimensional collaborative platform in Hong Kong to connect food support service operators, food donors, supporting organisations and volunteers to enhance the effectiveness and efficiency of the food support service. Its key outcomes include: over 10 200 food donation transactions; over 320 service points; 850 donors; weight of food over 1 550 tonnes; worth of food over HK\$152 million. Another example is the "**Gerontechnology Platform**". The first inclusive Gerontechnology Platform in Hong Kong that links up different stakeholders on the supply and demand sides and fosters synergy to promote the development and application of gerontechnology, enhancing the quality of life of the elderly and providing support to their families, caregivers and healthcare staff as well as institutions. Its key outcomes include: over 1 180 Gerontechnology Products/ Services Information; over 100 Network and Capacity Building Activities, with participation exceeding 6 300 attendees; provided over 1 800 Support and Consultancy Services for Start-ups and Small and Medium Enterprises on the Design or Development of Gerontechnology Products.
